

1. Ensure you are NOT connected to the VPN
2. Open the Chrome web browser and go to: <https://vpnamerica.cemex.com>
3. You should see a login page as below. Enter your Cemex ID and password

5. When you see the AnyConnect screen below, click the Download for Windows button and save the file. Then run the downloaded file

4. When prompted, click CONTINUE

6. The software installation page starts, depending on which version you currently have installed, you may see a slightly different set of install options. Just ensure you choose to upgrade / accept any prompts

7. You should now be running version 4.9
