

COVID-19 Update for UK Employees | 21/09/2020

Feedback from HSE Visit to Site

One of our plants received a visit from the HSE last week. While overall feedback was positive, they made two observations that other sites should take into consideration:

1. **While there was a lot of hand sanitiser available, there were no antibacterial wipes for people to use.** This is an easy fix but does make a difference to the ability of employees to keep areas clean – please ensure you have antibacterial wipes available, for instance to clean down kitchen items after use.
2. **The site office and welfare facilities were receiving a professional clean once a day, however more regular cleaning is required.** This does not need to be completed by contract cleaners, but could be carried out by employees. Please ensure you are following the cleaning process specified in the [COVID-19 Protocols](#).

However, overall the HSE Inspector was positive and supportive of the efforts being made on site. Well done to all team members, and also to all our employees who are working hard at our plants and quarries to follow the Covid-19 protocols and prevent the spread of infection.

Updates to Travel Corridors

As has become a regular development, last Thursday some changes were made to the list of countries on the UK travel corridors list.

From 4am on Saturday, Slovenia and Guadeloupe were removed from the list, meaning all those returning from these countries will need to self-isolate for 14 days.

Thailand and Singapore have been added to the list, however these locations are not currently open to visitors from the UK.

As always, please continue to keep on top of the regular changes to this list if you are planning any overseas travel and ensure you speak to your line manager if you have any questions or concerns. For more information about the travel corridors visit the Government website [here](#).

Flu Vaccine Programme for CEMEX UK Employees

Following our initial communication last week, we wanted to reassure employees that those who have booked a slot at one of the flu clinics will receive an email confirmation from the H&S team closer to the time.

For those who are not able to attend one of the clinics, we would advise you to explore the opportunities available local to you to have one done privately as soon as possible. They are available from a variety of retailers including Boots, Superdrug, Tesco and Asda but demand is expected to be high. As mentioned, please keep the receipt for your vaccine and the cost can then be reimbursed through payroll, by emailing the receipt with your details to gb-hrcentraladmin@cemex.com

The flu can be deadly.
Protect your family.
Get your flu jab today.
Visit your local pharmacist or GP to find out more

Flu jabs are free for some, including children in primary school and residents over the age of 65.
