

# Driver Safety Matters

The Latest News from CEMEX UK Road Safety Team

January 2021

## What's New in 2021

**Happy New Year** to you all and welcome to our first Newsletter of 2021. I hope you and your families were able to enjoy some form of break to rest and recharge.

This edition of the **Newsletter** shares with you a number of topics which I hope you will find beneficial and informative.

Look out for the new **MP Connect** card which has already been launched in the Midlands and the UK roll out will continue throughout 2021. This card will confirm you have **MPQC accreditation** and that you have been **inducted to industry and individual H&S standards**. Whilst there will be a marginal cost to have this there are significant benefits in only having “One Card” to operate across the Industry.

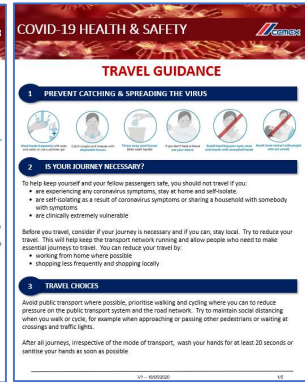

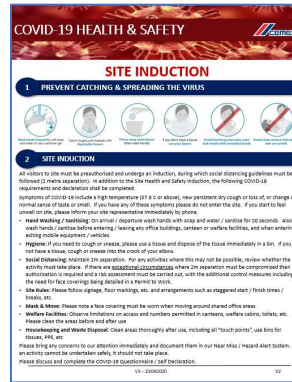

### **Blameworthy Road Traffic Collisions (RTCs)**

During 2020 we saw a noticeable reduction in RTCs with the **incident rate dropping by 35%**. It is important that we continue to report these so if you have an incident whilst working for CEMEX **please report this to your local Logistics Manager**

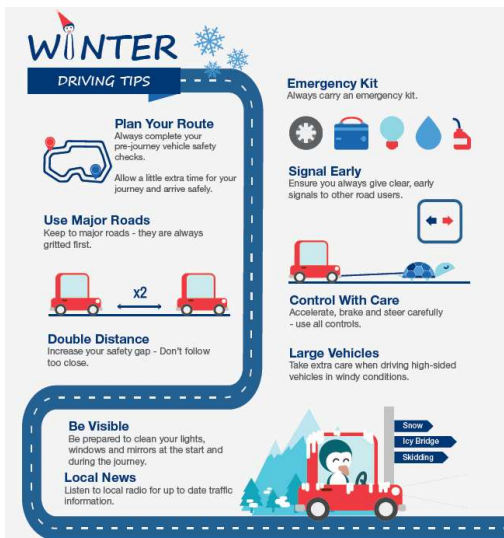

# COVID-19 Update

Thanks to everyone for their continued support and **compliance with the Government COVID H&S protocols**. The feedback we have received from our operational units and our customers has been extremely complimentary about your compliance...**THANK YOU!!**

The construction sector as endorsed by the UK Government remains firmly open for business and you as essential workers are key to keeping the economy going.

## BEHAVIOURS THAT SAVE LIVES

### Be Winter Ready

With winter and poor weather upon please ensure your sites and drivers are **‘Winter Ready’**. Slips Trips and Falls remain the No 1 cause of accidents in the construction sector so please continue to be vigilant

Clearly the impact of the pandemic has been felt throughout society. Given this it's imperative that we continue to **support our colleagues, friends and family** particularly with the recent lockdown restrictions. This can be as simple as keeping in regular contact, including listening to any concerns and ensuring **Mental Wellbeing** is firmly on the agenda

## A note from CEMEX UK Road Safety Team

After a unique 2020 it looks like the first few months of 2021 are going to be equally challenging and we will need to demonstrate our resilience. Please can I continue to ask for your support in complying with the COVID guidance. Finally stay safe and please share with us any stories or similar newsletters you produce.
