

WHAT IS A NM / HA?

Near Miss / Hazard Alerts are a fundamental part of our safety efforts and ensure that potential risks are spotted and resolved before they cause any issues.

A **near miss** is an incident that could have resulted in an injury or illness to people, danger to health, and / or damage to property.

Example:

Driver not looking when reversing

A **hazard** is an object or situation that has the potential to harm a person or cause damage to property.

Example:

Unguarded conveyor with potential nip points

Report by:

filling in a physical card,

or

logging through the INTELEX system,

(MOBILE APP AVAILABLE FOR EASY REPORTING)

or

Speak to your supervisor.

STOP THINK ACT
